

MultiPlan software leads the market with a suite of flexible, account based, transaction solutions to fit campus, corporate and food service environments.

FEATURES & BENEFITS

- Maintain a 'one card' environment using existing cards/badges (magnetic stripe, HID, contactless/prox, barcoded, and others)
- Fast transaction speed will reduce wait time, shorten lines, and increase revenue at any register
- Expands to include a variety of modules that can be customized to your institution and added at any time
- Create valuable management and planning reports
- Users are able to access, update, and revalue their account online anytime via the web
- Prevents data or transaction loss in the event of a communication or line outage with terminal offline mode
- Protect users' value by easily suspending and replacing lost or stolen card
- Merchant-based reporting makes reconciliation easy
- Integrates with LDAP and Active Directories for authentication
- All POS/UPOS terminals and loaders are IS enabled

Offers users flexible payment options

Account based debit, credit, or payroll deduction is available to suit your institution's needs.

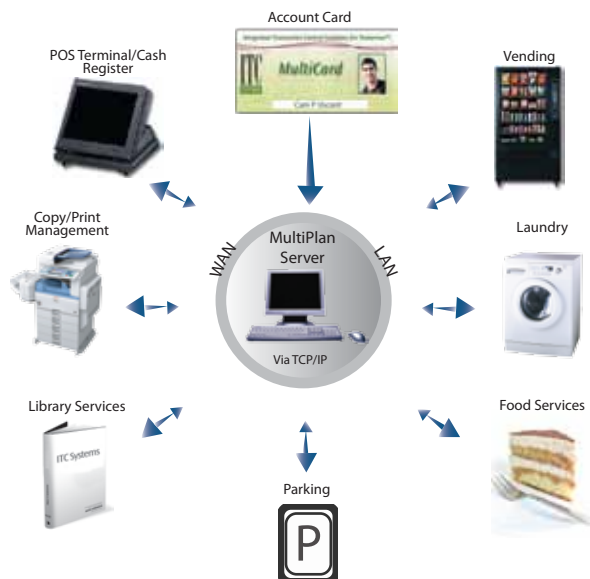

FUNCTIONALITY

MultiPlan is the transaction engine for account based management in an institutional cost recovery solution. This powerful back-end software integrates site-wide terminals using a variety of application specific modules to centralize and report all transaction data.

MultiPlan offers seamless access to account based funds and facilitates purchases in over-the-counter point of sales environments and Unattended Point Of Sales (UPOS) locations. MultiPlan allows multiple applications and account options for each individual profile group and user. These options include meal plans vending, copy/print services, laundry services, parking, retail purchases, remote value loading and more.

Your ITC Systems' consultant will help you choose the perfect solution for your institution's needs and help customize your system.

MultiPlan's architecture scales to accommodate a single site, or large multi-site network of POS locations.

Configure a multitude of POS and UPOS locations. Allow multi-site installations that leverage your existing SQL or Oracle database and TCP/IP infrastructure.

MULTIPLAN GOLD

Online Universal Account Solution

Flexible and dynamic with multiple applications to choose from.

The most affordable 'one card' solution in the industry. MultiPlan Gold replaces cash in all areas of a campus with the use of accounts connected to a card. Account holders are able to access and revalue their account online 24/7. MultiPlan controls costs, provides access to, and generates revenue for the following applications:

- Dining
- Vending
- Laundry
- Print/Copy
- Parking
- Library Service
- Athletics
- Retail (on/off campus)
- Bookstore
- Account Revalue
- Stadium Access
- Web Account Management

MultiPlan Gold consolidates the revenue producing areas on-site providing a superior management method for transactions throughout a campus or institution.

Central management for your 'one card' solution.

MULTIPLAN CORPORATE

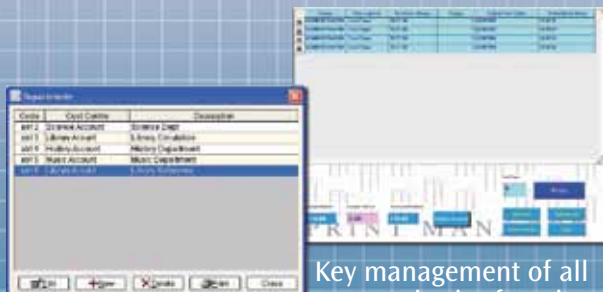

Business Solutions

Scaled and focused for copy and print applications.

Control the rising costs of printing and copying by implementing MultiPlan Corporate. Many of the features found in MultiPlan Gold are embedded in this package. Focused on tracking and/or charging for the usage of copiers and printers.

- Tracks administrative use
- Charges for copy/prints/microfiche
- Protects the privacy of your work
- Use of Job Numbers & PIN's available

Put a workhorse to use in your environment to control escalating copy and printing costs; eco-friendly.

Key management of all copy and print functions.

MULTIPLAN HOSPITALITY

Dining and Vending Solutions

Functional and structured for food service entities.

Design meal programs that meet your institution's needs. Specify number of meals, values per day, set meal time frames, and more. Based on MultiPlan Gold's framework with cash registers, vending and value loading applications.

- Scalable to accommodate a single or multi-site cafeteria
- Place all your food and drink vending machines online
- Meal Plan management

Increased efficiency for user satisfaction.

Unlimited meal plans available.

Supported Technologies

Cards

Magnetic stripe, HID, contactless/prox, barcode, and others

Registers

Popular compatible registers include Sharp UP600/700/800, 3500, and Datasym 6000. PC based solutions include Maitre'D, Aloha and Pixel Point. ITC Systems continually integrates with the latest in POS technology.

Terminals

MultiPlan uses the NetLink series of UPOS terminals for a variety of applications in the self-serve arena.

Network Configuration and Database Requirements

Standard Network supporting TCP/IP communication protocol. Supports MSDE, SQL, and Oracle Server Database formats. Compatible with Client/Server or Peer-to-Peer Networks.
